My fantasy animal

My fantasy animal

The spidershark is a very big animal on the land. It lives on the coast of Australia. The spidershark has a very big mouth and more than 2000 teeth. It's very dangerous and poisonous.

Spidersharks eat about 4000 people a year. The children from the spidershark are as big as elephants.

Spidersharks love people for dinner with a glass of coke. Spidersharks have no friends, because they are so dangerous.

Maryam, 2.b

My fantasy animal!

My fantasy animal is a cat with a big mouth. Her colour is pink and she is very friendly.

Many people have a cat with a big mouth as a pet.

Every day my fantasy animal plays with rabbits. My animal doesn't like rain, but on days with the sun in the sky, she is very happy. She is clever and catches many mice. I like cats with a big mouth and I want to be one.

Adina, 2.b

Rabbifant

The rabbifant is a rabbit with long ears and small eyes. He has a big nose and a little mouth. He is really poisonous and strong, he can kill a man with one hit.

The rabbifant weighs 100 tons. It is a rabbit and an elephant and lives in Vamanda. And it is very seldom. It has five big legs. His skin is red, green and

yellow. In Vamanda, the rabbifant is the strongest animal, but his teeth are very small. You only can find him in Vamanda.

Schüler, 2.b

Long time ago there was an animal, called Bigbug. It was as long as a train and as heavy as five elephants. It has six legs, three on one side and three on the other one and so it is very fast. It would eat almost anything that was on his way. He came from an island in the middle of the sea. He was golden-brown as the sand, and had lava-red eyes, that scared all the other animals, but he was very shy. So he only ate and walked outside at night, during the day he lived underground.

Daniel Sch. 2.b

The Chesa

The Chesa is a very big animal, it can grow to eight metres.

It has two wings, with them it can fly to the sky. The Chesa has a small mouth with four teeth. It is black and yellow. It mostly eats small insects, but in summer it eats the meat of other animals. The Chesa has big, yellow eyes.

Nobody knows it exactly, because most of the time it is in the sky. It often drinks water, it loves it. Sad is, that it has no friends, because it has a very small nose and that is so ugly.

Ana, 2.b

The schooleater

The schooleater is 200 years old and he eats all the schools. He is very strong and big. The name of the schooleater is Kanaka.

One day he comes to Austria, Graz. He comes to the school, St. Andrä. All the children run away, run out of school. One foot of the schooleater is as high as the school.

The police come , but they can't do anything, because the schooleater is too big and strong.

Kanaka takes a car from the police and throws it far away.

The schooleater runs far away out of Austria. He runs to Africa and never comes again.

David O., 2.b

The Carrol

The Carrol is such a beautiful animal.It lives in the trees. It is red and it is the friendliest animal in the world.

I eats apples and kiwis, it doesn't eat meat.It looks like a bird and it can swim in the sea. It isn't as dangerous as a snake.

It has two baby birds. They are as friendly as their mother. Their names are Carry and Larry, one is a boy, one is a girl.

Zul, 2.a

My fantasy animal

My fantasy animal has ten eyes, three noses and a big mouth. She is green, red blue and white.

Her name is Lisa.

Her outfit: She is very fat, but very nice. Lisa lives in Krega, Krega is a very big city. Lisa very long hair, her hair is black. Lisa is very friendly. She can fly and is very good at swimming. Lisa is my favourite fantasy animal.
